How to Use This Guide.

The Personal Selections Guide has been created to assist you with your décor selection process and to help you establish your design preferences. The finishes and features included in this publication are generally representative of the types of features and finishes that may be available as Included and / or Personal Selections for your new Tridel home. While the majority of these photographs are of actual Tridel homes, please note that the accessories, furniture, lighting, wall coverings and area rugs displayed in the images are for illustration purposes only. All suites are sold un-accessorized and unfurnished.

Since there are literally hundreds of Personal Selections in our Studio for you to choose from, we have summarized this guide to reflect all available suite designs (i.e. 1 Bedroom to 2 Bedroom designs). The price ranges are estimates for the purposes of creating your initial design budget that will give you an idea on how to best prioritize your plans for customization. Detailed pricing will be provided during your appointment where you will have many pre-priced Personal Selections to choose from and for more specialized requests, we would be happy to custom price selections for you.

Environmentally Friendly Selection is considered an environmentally friendly alternative. Please see your Customer Care Décor Consultant for more information.

Extra Customer Care Selection may require additional maintenance, depending on your lifestyle or the nature of the material. Your Customer Care Décor Consultant would be happy to review proper care for these Personal Choice selections with you.

Don't overlook your bedroom. As the most personal room in your new home, your bedroom should be a place where you can feel relaxed and comfortable. Choose colours and textures that soothe you. Consider adding closet organizers to eliminate clutter. This is not just where you sleep; it's where you take refuge.

Don't think only of function, think solitude. Your bathroom should be a retreat from everything and everyone; your home spa. Creating a space that is both stylish and relaxing can be as easy as adding a handheld shower head that massages as it cleanses. In today's busy world, we all deserve a private space where we can withdraw from the world and rejuvenate.

Capped Ceiling Outlet

Don't forget to consider the lighting in your new home. A lighting plan is essential to creating mood and determining the purpose of each room in your home.

Enclosing the Den

Consider creating a more intimate atmosphere for your den by enclosing your space. Whether you work from home or just require a separate space, installing a doorway is the simplest design option. French doors offer a more traditional look while glass doors will offer light and maintain a more open feeling.

Kitchen Backsplash

Distinctive backsplash slabs enhance the kitchen, adding a splash of colour and elegance. In open concept homes, a distinctive backsplash beautifies not only the kitchen but the whole home as well.

Hand Held Shower with Side Bar

A little luxury with a lot of pull; this small detail gives you freedom to move and adjust your shower head, or keep it in one spot, as you wish.

Closet Organizers

Make every inch of your home work for you. Creating precious storage space is always a welcome idea and organizing your closets makes it easier to find what you want and save you time.
